

Greater Columbus Sister Cities International

Experience Seville, Spain (Andalusian region)
A Delegation led by Commissioner John O'Grady, April 28 – May 6, 2018

Delegation Report

Submitted by Julie Fox, OSU CFAES Representative

Brief Summary

Franklin County Commissioner John O'Grady led a delegation of 12 community leaders to explore an economic development and smart cities focused mission, supported by Greater Columbus Sister Cities International (GCSCI). The Central Ohio delegation visited the Sister City of Seville, as well as Madrid and Malaga. OSU's CFAES interest in this delegation included innovative partnerships related to food, agriculture, the environment, community engagement, and impact areas identified by OSU Extension. Franklin County Commissioners and the city of Columbus are strong university partners, with many collaborative projects, such as the local food plan. Key insights are based on the delegation visits, CFAES interests, urban context, and university engagement in Spain. Potential next steps align with priorities and shared interests of the city, county, university, and OSU Extension, especially in Franklin County. This report reflects an individual perspective and is intended to advance further conversation. A complete Sister City delegation report will be provided by GCSCI. As with most international adventures, it was clear that while our languages and circumstances may be different, together we can address grand challenges that impact our local and global communities.

Delegates

County

- John O'Grady, County Commissioner, Franklin County Delegation Lead
- Jim Schimmer, Director, Franklin County Department of Economic Development and Planning
- Lauren Rummel, Policy Director, Franklin County, Office of Commissioner John O'Grady City
- Shannon Hardin, Council President, Columbus City Council OSU
- Julie Fox, CFAES Department of Extension, Associate Chair Industry
- Mark Patton, Vice President, Smart Columbus
- Jean Carter Ryan, President, Columbus-Franklin County Finance Authority Board Chair, Central Ohio Transit Authority (COTA)
- Emmett Kellev, Law Firm Member, Frost Brown Todd, LLC
- Jim Russell, Executive Vice-President The Pizzuti Companies
- Cassy Sleeper, Strategic Marketing Manager, The Bruner Corporation Sister Cities
- Tim Sword, President, Greater Columbus Sister Cities International
- Sameen Daftar, Program Manager, Greater Columbus Sister Cities International

OHIO STATE UNIVERSITY EXTENSION

Visits

The delegation left Columbus, Ohio on Saturday, April 28 and arrived in Madrid, Spain on Sunday, April 29. Visits began on Monday, April 30 and the delegation returned to Columbus on Sunday, May 6.

Madrid

- <u>U.S. Embassy</u> Meeting with Tom Reott, Economic Counselor (from Ohio) and Trade Specialists Angela Turrin and Carlos Perezminguez Note: Urban Agriculture Initiatives' Network
- <u>Empresa Municipal de Transportes de Madrid</u> (EMT) visits with Marta Serrano, Sergio Fernandez, Luis Álvarez
- Juan Azcarate Luxan, Madrid deputy director of energy and climate change Note: <u>Madrid+Natural</u>, nature-based climate change adaptation

Malaga

- City Hall, Malaga Mayor Francisco de la Torre Prados
- Malaga City Council, International Economic Development Director, Marc Sanderson (from Texas)
- Tabacalera <u>Telefonica's Innovation Center Smart City</u>
 Note: Engaging innovations included <u>Imaginar Kids augmented reality puzzles</u>
 and the BackBlack App Hologram (demonstration and education possibilities)
- Enel/Endesa Smart City Malaga Project & Spanish National Digital Content Hub
- Andalucía Smart City Business Cluster, Daniel Gonzalez Bootello, Director Note: CFAES relevance and alignment with Smart Cities (and Smart Campus)

There are many examples of OSU CFAES relevant contributions to Smart Cities.

For example, Smart Infrastructure includes:

Water management

Local food Smart urban farming

Seville

- <u>Seville City Hall</u>, Mayor Juan Espadas Cejas and division leaders
 Note: they are sending a Seville Food Plan, built upon <u>urban ag plan</u>
- Tour of the Port of Seville
- Solnova solar power towers
- Urban Agriculture tour with Amy Bodiker Baskes (Franklin county resident, husband on sabbatical in Seville) *Note: Urban Gardens of Seville*
- Extenda Scope of agriculture sector
- Hacienda Guzmán Olive Oil Producers and Juan Ramon Guillen Foundation
 Note: Research

OHIO STATE UNIVERSITY EXTENSION

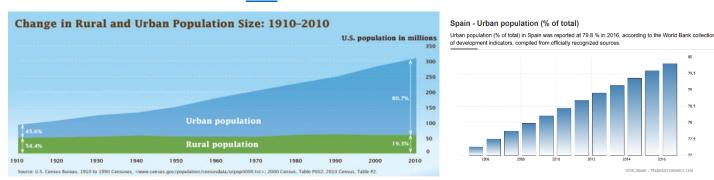

Urban Context

A theme shared by central Ohio and the cities in Spain is the <u>urban influence</u>. Locally, nationally, and globally, the urban context influences life along the <u>rural-urban continuum</u>.

By 2050, the world's urban population is expected to nearly double, making urbanization one of the twenty-first century's most transformative trends. Populations, economic activities, social and cultural interactions, as well as environmental and humanitarian impacts, are increasingly concentrated in cities, and this poses massive sustainability challenges in terms of housing, infrastructure, basic services, food security, health, education, decent jobs, safety, and natural resources, among others (United Nations, The New Urban Agenda, 2017).

Nationally, **census data show growth in <u>urban</u> and <u>metropolitan</u> areas, as well as <u>differences</u> <u>between urban and rural populations</u>. With 11.5 million residents, Ohio is the seventh most populous state in the nation. More than half of <u>Ohio</u> residents live in 10 of the 88 counties.**

The urban context is especially relevant to the university, the college, and OSU Extension. As an <u>anchor institution</u> with "urban" woven into the university's <u>vision</u>, OSU plays a significant role in addressing the urban context. OSU will be featuring the urban mission as one of the Sesquicentennial Academic Summits, tentatively scheduled for Tuesday, January 28, 2020. Nationally, two organizations focus on urban universities – the Association of Public and Land Grant Universities Urban Serving Universities and the Coalition of Urban and Metropolitan Universities. The Extension Committee on Organization and Policy (ECOP) added urban issues to their priorities. A National Urban Extension Leaders group formed and now has steering committee representation from NIFA and ECOP.

Scholars at OSU and around the world have explored the urban context and urban-rural relationships from a variety of perspectives. For example, <u>OSU's C. William Swank Program in Rural-Urban Policy</u>, <u>OSU's Center for Urban and Regional Analysis</u> (CURA), <u>OSU Department of Geography's Urban</u>, Regional, and Global Studies, OSU's Center for Languages, Literature, and Cultures.

Key Insights and Potential Next Steps

The trip to Spain reinforced the value of urban leaders exploring common intersections to gain insight into alignment of shared priorities. This potential framework illustrates how OSU CFAES leverages a network of resources for impact at many levels. Next steps could include using this draft table to explore the impact alignment and related opportunities of OSU CFAES teaching and learning, research and discovery, and community engagement.

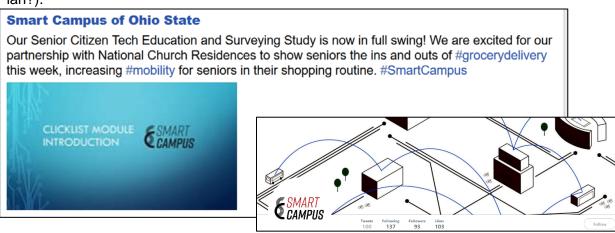

Table 1.0 Common Interest Framework (draft outline and work in progress)

Perspective	Global	National	The Ohio State	Central Ohio
Priority	UN Habitat III The New Urban Agenda Sister Cities (beginning with Seville)	APLU Urban Serving Universities (USU) and Coalition of Urban and Metropolitan Universities (CUMU) National Urban Extension Leaders (NUEL)	University (OSU) College of Food, Agricultural, and Environmental Sciences (CFAES) international programs in agriculture	Urban Community Collaborators Government Business (Profit & NP) Education Philanthropy Citizens (Volunteers) The Columbus Way
		ECOP NIFA Joint Council of Extension	OSU Extension (OSUE) OSU office of international affairs, student life, Center for	Smart City
		Professionals (JCEP)	languages, literatures, and culture	
Sustainability	Environmental Sustainability	Protect the Environment (NUEL) Feed Our Future (NUEL)	Water quality (CFAES) Environmental Quality (OSUE) Sustainable Food	City/County Food Plan
		Climate Change (NIFA) Sustainable Energy (NIFA)	Systems (OSUE) Urban Ag	
Economy	Sustainable and Inclusive Urban Economies		Job Skills & Careers (OSUE)	My Brothers Keeper (City)
Health	End Poverty	Improve Our Health (NUEL) Global Food Security & Hunger (NIFA) Childhood Obesity (NIFA) Food Safety (NIFA)	Food Security (CFAES) One Health (CFAES) Health & Wellness (OSUE)	Poverty (County)
Urban-Rural		1 odd Galety (Mi 7)	Rural-Urban Grand Challenge (CFAES) Policy (CFAES) Broadband	
Quality of Life	Leave No One Behind	Enrich the Youth (NUEL) Strengthen Communities (NUEL)	Thriving Across the Life Span (OSUE) Engaged Ohioans, Vibrant Communities (OSUE)	

Additional potential next steps include:

- Advance the international perspective detailed in the UN's Urban Agenda as it aligns with OSU's urban mission and 150th Sesquicentennial, CFAES Grand Challenges, and Extension's urban framework.
- 2. Connecting with other Extension teams who visited the Sister City. For example, Colorado State University Extension hosted a tour of the Andalusian region of Spain in Nov. 2017 to explore food systems, agriculture, and natural resources.
- 3. Exploring potential **connections for OSU Extension leaders with Sister City programs** in other urban municipalities.
- Developing relevant linkages with the Columbus Smart City initiatives (such as 4-H youth engagement) and OSU's Smart Campus and student interests (potential link to Waterman Master Plan?).

- 5. **Following up with delegates on potential projects** discussed during the trip, as they relate to OSU Extension Franklin County, emerging public-private partnerships, CFAES smart and learning cities linkages, and <u>OSU discovery themes</u> <u>www.citiesreimagined.com</u> http://cityinnovate.org/home/about/network-of-cities, <u>www.c40.org/cities</u>, http://uil.unesco.org/lifelong-learning/learning-cities, www.worldcitiesnetwork.org,
- Introducing multidisciplinary OSU colleagues to university professionals with other urban leaders in Sister Cities who are working on common interests, such as urban agriculture, food systems, sustainability, and urban-rural relationships. Build on applied research.
- 7. **Visiting with CFAES leaders** involved with the **college international office** and OSU leaders involved in the Sister City to explore potential shared interests.

ANDALUSIAN FOOD INDUSTRY > 12,468 € Million Turnover > 5,301 Companies > 20,000 Auxiliary agriculture companies > 47,118 Direct Employees

→ 47,118 Direct Employees→ 8,343M€ Million exports

4,5% of Andalusian GDP

□ The most significant industrial sector in the Andalusian economy accounting for:

> 20% total exports in Spain, ranking 2nd at national level, always with positive balance.
